ABOUT US

Since 2008, Premier Academy Nursery has been offering an international education environment to develop knowledgeable, caring young people who will be ready to navigate their future successfully and make contributions in the society in order to create a more harmonious and peaceful world and that is why we are the "Makers of Leaders".

VISION

Premier Academy will be one of the most prestigious and educational nurseries and pre-k in Egypt by offering a unique environment for kids to grow and learn.

MISSION

Premier Academy Nursery provides an excellent foundation on which every child can build his future within a caring, secure and stimulating environment where he feels valued and happy. We are an inclusive nursery where each child is given equal opportunity.

INTERNATIONAL QUALITY STANDARDS OF EDUCATION

DIET AND NUTRITION

Healthy foods help your child to grow and can improve concentration leading to higher levels of interest, curiosity and playful learning. If we introduce children to healthy eating now, it is much more likely that they will continue to make healthy food choices as they grow up.

CURRICULUM AND CARE

Daily life is bursting with many learning opportunities for your child right from the moment of birth. At Premier Academy Nursery, we believe that every day got its learning outcomes. Our staff will be trained to find valuable learning experiences for your child everywhere we look. Even the most routine tasks will teach your child something new.

TECHNOLOGY

At Premier Academy Nursery we use the Augmented Reality technology which is a technology that works on computer vision based recognition algorithms to augment sound, video, graphics and other sensor based inputs on real world objects using the camera of your device.

HEALTHCARE

The Health of the children is our priority. Premier Academy applies a healthcare system by keeping our kids health information in a professional filing.

ABOUT US

Since 2006, Premier Academy Nursery has been offering an international education environment to develop knowledgeable, caring young people who will be ready to navigate their future successfully and make contributions in the society in order to create a more harmonious and peaceful world and that is why we are the "Makers of Leaders".

VISION

Premier Academy will be one of the most prestigious and educational nurseries and pre-k in Egypt by offering a unique environment for kids to grow and learn.

MISSION

Premier Academy Nursery provides an excellent foundation on which every child can build his future within a caring, secure and stimulating environment where he feels valued and happy. We are an inclusive nursery where each child is given equal opportunity.

INTERNATIONAL QUALITY STANDARDS OF EDUCATION

DIET AND NUTRITION

Healthy foods help your child to grow and can improve concentration leading to higher levels of interest, curiosity and playful learning. If we introduce children to healthy eating now, it is much more likely that they will continue to make healthy food choices as they grow up.

CURRICULUM AND CARE

Daily life is bursting with many learning opportunities for your child right from the moment of birth. At Premier Academy Nursery, we believe that every day got its learning outcomes. Our staff will be trained to find valuable learning experiences for your child everywhere we look. Even the most routine tasks will teach your child something new.

TECHNOLOGY

At Premier Academy Nursery we use the Augmented Reality technology which is a technology that works on computer vision based recognition algorithms to augment sound, video, graphics and other sensor based inputs on real world objects using the camera of your device.

HEALTHCARE

The Health of the children is our priority. Premier Academy applies a healthcare system by keeping our kids health information in a professional filing.

Knowledge Valley School was established in September 2008 in a countryside area about thirty minutes from Central Cairo. The school is considered one of very few Egyptian prominent figures in the field of education.

What makes KVS a unique learning organization is its competitive characteristics, where we compete not only with the Egyptian International schools, but also with the international schools teaching standards. The school has the privilege of having spacious, uncrowded and well equipped classes with smart boards attached to high quality speakers to develop the listening skills.

Moreover, our staff is supported with well experienced consultants who make sure that the selected teaching approaches are according to the latest standards implemented worldwide. In addition, our selected books and e-books ensure best learning quality as they are tackling higher order thinking skills, building inquiry and problem solving competencies which are instilled in our students' minds from a very early stage.

Knowledge Valley School doesn't only put academics as its first priority, but focuses on building students' character as well. This is done through special sessions for character building, supported by practical work during activities.

In KVS young learners are considered our main responsibility as we're aware that we're shaping their characters; hence, their learning approach advocates choosing teaching methods which ensures having fun and promoting life-long learning.

The school follows the National Curriculum and Overseas Curriculum for England and is registered as an Examination Center for IGCSE offered by Cambridge, Oxford and EDEXCEL examination boards. In addition, students learn French and German from a very early stage; they sit for the French DELF exam or FIT German exam according to their choice. Consequently, students finish our schools with great fluency in English, French and German.

Having your child in KVS ensures having a son or daughter who is ready to cope with future challenges and can compete with any student world-wide.

أن يملأوا شوقاً، سؤلوه من ذوي الهمم
أن تبدأ معها طريقاً للعطاء والصفاء
وهي أيلة ستة أشهر لاجلها أقرب ما تكون لطفل طبيعي
أن تفر مسارات حياتك العملية، وهي أيلة ثمان سنوات
لتوفر متطلبات هذه الحياة الأليمة
أن تكونوا من أيلة أخرى وهي أيلة خمسة عشر عاماً
وتكون هذه الأيلة ليس من أجلها فقط ولكن
من أجل من يدعونهم ولسانهم لجميع أبنائنا من ذوي الهمم
التأخير من أجل تأسيس جنة الملائكة
تتسرف أسرة جنة الملائكة بخدماتهم

Taking care of your baby begins even before conception

At Rofayda we believe that child care starts even before pregnancy, starting with consultations at our outpatient clinics which offer a wide array of specialties. We also make sure our patients are well aware by offering them educational sessions at the academy. Once you start the journey of pregnancy we hold ultrasound sessions, strict monitoring and make sure you keep your physique during your pregnancy by offering exercises with our qualified instructors. We also have our emergency services open 24/7 for you and for children in our community. Half way through the journey we work on your birth plan and introduce you to your healthcare provider. For a natural birth, we have a special birth team who help provide a gentle birth experience. When it is time for delivery, we make sure you receive the finest care. We then greet your new-born with a warm heart at our nursery and when you are ready to say goodbye, our doors of paediatrician are always open until your baby grows with us in a good health.

The advertisement features a vibrant, cartoonish design. At the top, three clouds contain the words 'TOYS' (in red), 'BABIES' (in blue), and 'GIFTS' (in green). Below these, a large sun and a palm tree frame the main title 'KIDS ISLAND' in colorful, bubbly letters. Underneath the title is the slogan 'Discover it!' in white text on a blue background. The bottom section of the ad is a dark blue banner containing contact information for three locations: El Sheikh Zayed, Zahret El Madaen Sq., and Sheraton. A Facebook link is also provided.
